Museum Exhibit Guide

# POCKET CURATOR

Making it possible to walk through museums throughout Japan with this single application

## About "POCKET CURATOR"

Using text, picture, sound and animation...

This is a convenient and free application that will serve as your exclusive guide at various museums.

Easy  
to operate

Just input  
the number

"POCKET CURATOR" is a free application that lets you enjoy written explanation and narration from curators about the displayed items on your own smartphone.

With "POCKET CURATOR," you can use guides from many museums across Japan. This is because POCKET CURATOR is provided at many museums.

"POCKET CURATOR" is an application for that kind of museum enthusiast. Please bring it with you around the museums and try downloading.

When several museums are displayed in a list, you choose the museum you want to see.

The museum profile will be displayed. When viewing the exhibit, choose "Guide" and proceed by entering the number.

Input the number  
corresponding to  
the exhibited item  
and tap "Set."

Information such  
as explanations  
and pictures of  
exhibits is  
displayed. To enjoy  
replaying sounds  
and animations,  
please tap the  
replay button.

If you search for  
the name of the  
displayed item,  
that information will  
be pulled up for you.

You choose the museum you want to use. You can search for a museum near your current location or search using the name of the museum.

If you choose "List," a list of items being exhibited will be displayed. If you choose "Download," the data from that museum will be downloaded onto your smartphone, but that data will be deleted 24 hours later.
